To whom it may concern:

The cost of electricity is already too high. Both the Ontario government and the federal government are looking at ways to reduce Hydro cost to help the low and middle class income earners. This request for distribution increases over the next 5 years is in direct conflict with the steps the governments are taking to help reduce the already high cost of electricity in Ontario.

I am 100% against this increase and will support any initiatives taken by the government to stop this increase.
