I am totally and completely 100% against any increases in Hydro rates for ANY REASON!!! Ontario Hydro costs are the highest of any province in Canada.

This increase would be outside of the Fair Hydro Act, 2017 recently implemented and this act did not do anything but get us deeper in debt and give some money while taking more with the other hand. Please be responsible for a change and stop these increases in their tracks!!! I have also written to the Premier and Energy minister and will attend local public OEB meetings in my area along with many of my neighbours. enough is Enough! Actually, it is already past TOO MUCH! In addition DELIVERY CHARGES should be shared equally with EVERY hydro customer in the province thereby making it fair and affordable for all.
