Hydro One having the nerve to ask for yet another increase is absolutely disgusting. Especially in light of the Liberal govts promise to reduce hydro costs. The liberal govt is absolutely ruining peoples lives who work in the private sector and pensioners like myself on a fixed income....until hydro one executive salaries are reduced to private sector average salaries let hydro one find the money by reducing their own costs before automatically asking for rate increases the people of Ontario can no longer afford. Hydro One executives need to be outright fired and new ones hired at a fraction of executive salaries now being paid. For once OEB do the right thing for the people of Ontario and turn this request down.
