I really have a hard time grasping how a company full of corrupt people can justify raising rates anymore. I have never in my life ever paid this much for power of any kind in my whole life. I have lived in 6 provinces and by far this is the most corrupt company I have ever dealt with. Keep raising prices... pretty soon you will have no customers to pay your crooked rates.

I, along with so many people of Ontario are so pissed at all this BS.

Dictating pieces of sh@t, that hopefully will pay in spades when your loser Wynne gets obliterated in the next election. Karma for your company is going to really suck.
