These proposed increases are ABSOLUTELY OUTRAGEOUS!!!! Not only are the executives robbing us blind with their exorbitant salaries, but they are selling hydro at such a low price to anyone other than Ontarians, that I see no justification for their request to be granted. Even with the farce of Wynne's election only promises of reduced rates "temporarily" the increased fees will break a lot of people who are on fixed incomes, welfare, working poor. The rental market cannot possibly accommodate the need and with such a shortage of affordable housing, the prices will rise exponentially and put that housing option out of reach of many. How many things in our economy will be affected by this cash grab? How many people will be marginalized because of this greed of the private sector ownership, in partnership with the Liberal criminal mishandling of our energy resources???? Do not approve this request!!!
