This comment is on behalf of my 90 year old widow mother, Louise Mason, living by herself in her own electrically heated home at the address above in [REDACTED], Ontario.

Her house was built in 1974 and she and my father retired to this area. In

2015 and 2016, They paid \$6,500 each year to Hydro One. In 2012, They paid \$3,300. The increases to my mother's hydro bills are obscene. As a pensioner, receiving CPP and OAS, these costs are taking a HUGE bite out of her living income. This has to stop! The government wants our seniors to stay in their own homes, but with this type of increase, they are forced out of their homes. They certainly can't afford the monthly rates at a seniors home! That too is obscene.

Ontario Hydro has continually wasted the tax payer's money. It is NOT acceptable that any more of a burden be placed on the people of Ontario. Let them look internally for savings. Most companies are top heavy!

Stop this increase. Do not approve!

Joan Moriyama
