I would like to start by saying that the residents of Woodstock had absolutely no say in the sale of Woodstock hydro. After the sale was complete, I encountered a hydro one representative at a local fair and he assured me that rates would freeze for at least 5 years. With the sale of Woodstock hydro, my water bill became separate yet my hydro bill did not decrease. Why does almost every other company have competition except for our energy sectors? It is unfair for families to work harder and harder just to make ends meet. Our electricity prices are among the highest in Canada! Why should we continue to pay more while we are constantly improving our energy consumption AND we're paying to unload our surplus of energy to the U.S.?!
I'm really starting to become disappointed in Canada...
