OEB and the Ontario government are crooks and criminals. We have to unite in this effort to educate ourselves and confront the Liberal party and the OEB that have no concept on how to run a financially responsible public organization like a business.

The only way to stop this insanity will be a provincial bankruptcy to kill all those irresponsible long term contract with these green power generators and fire all the OEB managers on the sunshine list.

This mess is only getting worse and we are seeing only the tip of the Wynne iceberg that is going to finish the destruction of Ontario that McGuinty started.

That's what i intend on doing!!! Too bad people in Ottawa are sheep and pay whatever they're billed without question. I strongly believe if everyone unites we can bring them off their pedestal. Whats going to happen this winter when those on fixed incomes cant pay their hydro? If hydro cuts them off how many will even be able to get it reconnected.?
