ABSOLUTLEY NOT; just another cash grab by the province, another increase to the costs. Can we see what the executives are being paid yearly, maybe freeze their salaries instead, for gross mismanagement. Looks like a ploy to make the privatization more attractive by helping the balance sheet. It should not be privatized. If the privatization is worth as much as predicted then why are we losing money? Maybe the gov't instead, should learn how to run an operation efficiently. Quit filling gov't run energy operations with over inflated salaries to patronage appointed personnel. So No! they should not get another penny.
