Distribution charges, a revenue stream to Hydro One Networks and an expense to all the good people of Ontario including Norfolk, Haldimand counties and Woodstock.

Ontario Hydro is an essential product for the citizens, business, manufacturing plants in Ontario, there are no competitive forces keeping Hydro One competitive while over the years their rates have grown totally out of control.

I urge the OEB to decline Hydro One networks recent proposed distribution rate increase in the best interest of everyone in Ontario.

In addition, I also suggest to dissolve the distribution charges within all of Ontario, further reducing these outrageous Ontario Hydro bills. This will only force Hydro One to operate in a more efficient and competitive manner.

It's time Hydro One becomes accountable for their actions and start putting Ontarians first!
