Subject:

I attended the meeting in Rockland, June 20. I was disappointed by the few people who showed up at that meeting. Future meetings should be advertised on our Hydro bill. I agree with the lawyer speaking on our behalf. There is mismanagement on the part of the CO. Hydro One. The Co. makes profits every year. The president and vice-presidents' salary is outrageous. A household has a budget to meet. We put aside money for rainy days or for future expenses. A CO. has a budget and Hydro One surely has enough money to cover the cost of the replacing of the Hydro poles. All I got from Hydro One raising our electricity bill is to replace the hydro polls. Ridiculous! Another bookkeeper should be hired to review the expenses of the CO. and to make cuts where needed to meet the CO's budget. Why should we tighten our belts when there is no need to? Instead we should get a break to save for future increases.

Thank you for your attention and wish to hear from you soon.
