Dear Ms. Walli:

**Re: Status Report on EnWin's Load Transfer Elimination Application
EB-2015-0006**

In April 2017, ENWIN became aware of one load transfer arrangement where EnWin is the geographic distributor for a single residential customer. EnWin has been working with Essex Powerlines, the physical distributor, to resolve the load transfer.

The load transfer was not known to EnWin until recently and as such, we require additional time to prepare the load transfer elimination application filing.

EnWin would like to request a temporary exemption from s.6.5.3 of the Distribution System Code until September 30, 2017.

Yours very truly,

ENWIN Utilities Ltd.
