I am a single parent with 2 children struggling to make ends meet. I am currently being forced on a daily basis to forego home repairs, quality food, medical and dental attention, registration for kids activities and the list goes on in order to keep lights on in my home. I do not want to be forced out of my home because of Hydro costs but some days that seems like the only choice. Please stop any increases and allow me to provide for my family like any good parent strives to do.
