Until Hydro One can get it's Company culture of paying too many people, too high a pay for work done NO increase of any kind should be granted to Hydro One. It's a joke and several person with in the company actually laugh at their position and compensation. So until there is a change , forget it. Why should the people of Ontario pay for mismanagement, waste, and bad decisions. Would a company in the private sector tolerate this performance and culture?  
I think not!
