Hi: I am writing about the application for a proposed rate increase for delivery of hydro. I reject this application due to the fact that I now pay more for delivery than I do for hydro usage. I feel that the amount of the increased asked for is also not in line with increases in my Old Age Pension or for that matter in most citizens pay increases. I think that Hydro One should be looking at ways of cutting costs on delivery charges by streamlining their work force by making employees more productive, giving value for their rates. Supervisory staff also needs to pickup the pace and prove they are worth what they are getting now.

Yours truly,  
Margaret Jenkins
