We are seniors living on a fixed income. We have changed all our lightbulbs to new low energy LED lights, use washer, dryer and dishwasher after hours, reduced our heat, installed fans in all the rooms and continue to see our Hydro One statement increase. Unfortunately, our income does not increase at the same rate. These increases along with growing costs of meat and produce, gasoline, medications, it is becoming more difficult to stay afloat. After the government giving a rebate to help with the cost of electricity, I find it poor taste and heartless of Hydro One to request these increases. They should be cutting salaries of executives, and their expense accounts in order to reduce their costs.
