Ontario cannot afford any further increases in hydro rates. The working class simply cannot afford to subsidize bonuses for executives who are already overpaid and frankly are not earning their current salaries. Since when are performance bonuses assigned to executives who cannot make fiscally responsible decisions. This Government has enabled the current situation and will enable it to deteriorate further by moving forward with privatization, signing energy contracts that are not needed, and improving rate hikes.

Please tell me how this will impact the rebate I was supposed to see on my hydro bill?
