It is very disappointing to hear rates are yet again going up! It is contradictory to what the Ontario Gov't is promising. People need to understand in DETAIL where the money is being spent and how those changes or improvements are impacting them where they live. If changes/improvements have little effect in relation to where they live, then why should their rates increase???? We need MORE info. What are you doing to which equipment that provides hydro to my address, that it is causing my rates to go up again???? Very disappointing!!
