I strongly urge the OEB to refuse the requested rate increase. Ontario consumers are suffering from never ending rate increases for an essential service. It's unethical for Hydro One to request yet another rate increase when their executives are making obscenely high salaries. Through reductions to executive and management salaries and finding efficiencies within the corporation they could avoid the need to raise rates. It is unfair to pay salaries significantly over the norm while forcing consumers who have no other option to foot the bill. If this was a regular company with competition they would not be able to have this extreme level of dissatisfaction and remain in business.
