I completely disagree with raising the hydro rates any further. The burden on the average Ontario rate payer has already taken it's toll. The amount of employers leaving Ontario is staggering. Most employers are stating that they already cannot pay for operating costs esp related to hydro so they are leaving the province. Hydro One has not been responsible with the use of the money they have already been given by the rate payer. Skyrocketing salaries for greedy administrators is already burdening H1 users. Enough already!
You cannot continue to increase the rates. H1 is already ruining Ontario...
don't make it worse.

Dorothy Mercier
