Hello,

Regarding the file EB-2017-0049 I do not support the increase in electricity distribution rates and other charges proposed by Hydro One Networks and I am willing to help you achieving your goal.

Being a Mechanical Engineer and a Project Manager Professional (PMP), I am enthusiastically willing to join Hydro One in order to contribute in providing energy at much more affordable cost.

As my career profile illustrates, I am well-prepared to meet and exceed your expectations. Having served as Project Manager within transportation and building construction industries, I am accustomed to the rigors of fast-paced, highly-regulated environments requiring sharp attention to detail, consummate accuracy, and outstanding communication skills. If given the opportunity, I will work tirelessly to deliver similar results for Hydro One while partnering with your staff to accelerate the achievement of your immediate and long-range goals.

Further, I would bring the following strengths to your team:

- Efficiently initiating and monitoring multiple projects to successful completion.
- Demonstrating extensive knowledge of engineering codes, laws, regulations, and best practices.
- Adept at locating ways to increase profits and reduce costs by streamlining processes.
- Bilingual in French and English

In me, Hydro One will gain a diligent, goal-oriented professional with the agility, dedication, and focus required to successfully fill the role of Project Manager/Project Coordinator for example. As such, I would welcome the opportunity to meet in person and discuss this opening in detail. Also, I am available to travel and relocate in your service.

Thank you for your consideration. I look forward to hearing from you!

Sincerely,

Fabrice Aldo [REDACTED]
