The distribution rate I pay exceeds my hydro usage each and every month and the rate I pay is far less than many others. People having to make the choice between food or heat in a province such as ours is deplorable and must be taken into consideration during your deliberation. The proposed increase makes a mockery of the recent government announcements to the people of Ontario that we would see a 25% reduction. As an independent body please review this application with the utmost diligence. The people of Ontario are already paying far too much. Thank you.
