Please don't accept this increase

I believe we being pulled in all directions over hydro, first you get saving because there expensive then you get pain because of this. For me i am a guy who is only 4-5 dollars over minimum wage when the prices jump when minimum wage increases i am going to have to decide how to cut down on hydro even more. Please don't accept this as it is going to be even tougher to live on Jan 1,2018 when everyone is making 14 a hour.
