I think that delivery charges should be equitably charged by all utilities throughout Ontario. Hydro One delivery rates are exorbitantly higher than the rates for customers who are served by local utilities within communities like the town of Kingsville and the City of Windsor. To raise these rates further as requested by Hydro One would only serve to maintain this unfairness and punish rural customers. Instead, raise delivery charges to ALL utility companies in the province and lower the rate for Hydro One customers.

After all, we all live in the same province, so we should all be treated equally and fairly. Delivery rates for Hydro One customers are neither! At the very least, do NOT approve this rate hike.

Carolyn Langlois  
Hydro One Customer
