I am a single mother trying to do the best I can for my son. Unfortunately each month a large portion of my paycheque already goes to Hydro One. We heat minimally and we do not use an air conditioner all so my son and I can eat a proper diet. We have been fighting our Government and Premier to get control of our Hydro but the help has been too little too late. Please don't add to Ontario's already contentious Hydro issues. Unfortunately living in our climate we cannot consider living without hydro but we also cannot go without food or clothing. Prices for food and clothing reflect increases in hydro. Many Ontarian's just can't afford any more increases. Please seriously consider the ramifications to the Ontario people.
