Hydro one is being grossly mismanaged. They have a captured market and just keep raising rates to compensate for their mistakes. Ontario's power rates are the highest in the country already and this needs to stop. Do what any other business in this position would do. Cut expenses. Obviously the CEO is not doing the job of managing very well. That salary needs to be seriously reduced or he needs to be fired and someone who can do a decent job for a reasonable wage should be hired. Many employees are not doing a full days work. In fact, some JOKE about how little they DO! Lay off employees and reduce exorbitant wages. Bottom line? CUT EXPENSES and stop exploiting your customers.
