Honestly,

I have a well paying job....and this past year has forced us; more times then I'd like to admit; to choose between food and hydro. The constant increase in this rate is causing undue hardship for our family. So much so, that we've honestly thought about moving out of Ontario. It needs to stop. There cannot continue to be increase after increase. There needs to be better management of our hydro rates; last I checked Hydro was not considered a luxury in Canada!
