Enough is enough! I strongly oppose any electricity costs increase and call for a complete moratorium on any form of increase for five years.

During that period I strongly request that this be coupled with a roll back of all executive compensation such that no executive receives more than one million dollars per year. At that level a Hydro executive would still be making more than any other counterpart in other provinces.

Furthermore I request a freeze on executive compensation for the following five years with one exception. If the executive of Hydro One can reduce electricity costs for all consumers, businesses included, then they may receive a bonus equal to 1% of their normal compensation.

For much too long the residents of Ontario have been fleeced, seemingly in order to line the pockets of those in charge. This must stop!
