I live alone in a 2 bedroom semi-detached rental unit since December 16, 2016. I was shocked to see the cost of heating and electricity. After my first bill, I decided to keep the heating at 17 degrees, cook, shower and do laundry only after 7pm. I managed to lower my bill to 300\$ a month. I can only image what families with children have to pay. Please, deny Hydro one this request, and think of all the people already struggling to pay their hydro bills.
Thank you,
