I have recently heard of Hydro One's application to the Ontario Energy Board (OEB) for a distribution rate increase. Not only does the application request a distribution rate increase, but they are also applying to have the service charges on disconnection/reconnections, removal of load limiters, account collections and access to their poles all increased. The application goes on further to say that these increases would be added to my bill before any rebates from the Fair Hydro Act, 2017 are implemented. So much for electricity rate relief!

Premier Wynne promised us electricity rate relief with her government's Fair Hydro Act. What she didn't bother to tell anyone was that Hydro One would still be able to apply for rate increases despite this new law and that this government's energy policies would continue to add burden to our already expensive electricity system.

I am sick-and-tired of her duplicitous electricity shell-game and empty promises. This is shameful.
