I object to any and all increases whatsoever, because way back when consumers were asked to conserve, I undertook all sorts of measures and cut my usage and consumption of Hydro by 50% and low and behold in the last few years the rates have increased to a point where I am paying the same amount of Dollars each and every month all year long as I was paying BEFORE and yet I am only consuming half the electricity. I am now non-negotiable and I hereby condemn any and all increases as it is Hydro's turn to pay me back and NOT the other way around:

Delmer B. Martin
