The hydro rates have sky rocketed so high that the normal family now has to choose from buying food, pay gas just to pay for hydro. Hydro One is now the biggest debt in a regular family household. How can hydro rates increase when our pay checks are and have been the same and have not increased to keep up with hydro rates.

In Ontario we have more fresh water resources that create free Hydro, but we "Ontarian's" have to pay for delivery fees, debt repayment, disconnect, hookup charges all because hydro one does not know how to properly run a business. Hydro One has the monopoly within Ontario and I believe that the Supreme Court of Canada needs to step in and ensure that Hydro One does not have the monopoly like the U.S. Supreme Court did to John D. Rockefeller, Canada needs to do the same with Hydro One.
