These hydro distribution fee increases are ridiculous. I already pay more for delivery than I do for the power I use, this will just exacerbate the problem. The fact is I have cut the kWh s I use by 50 % over the last few years, yet my bill has gone up! There is nothing fair about this increase.

The auditor general's last report on hydro one detailed more and longer blackouts then neighbouring jurisdictions DESPITE the billions put into hydro one. She detailed rate increase applications to replace aging infrastructure of which ONLY about 20% or less WAS ACTUALLY REPLACED! Hydro one does not deserve more money until they can provide proof that the money they get has been spent wisely and efficiently. Do not approve these increases.
