I think the saga that is Hydro prices needs to END. people are already living paycheck to paycheck and finding themselves choosing between groceries and gas for their car vs paying a hydro bill. It should go up NO MORE. whose pockets are they filling by adding on these costs? They are certainly emptying mine. my family and I have strongly considered moving into town (Peterborough) just to get away from these unfair and UNREALISTIC hydro prices. I am disgusted and horrified by my bills each month.
