I am so sick and tired of the robbery and tactics and antics of the minister of energy. Katherine Wynn needs to go.

It is absolutely insane to think about raising hydro rates - we are suffering enough as it is.

From August 2015 to August 2016 our hydro one bill for the year came to a total of \$7,115. Imagine!!!

We have a 2400 square foot house, we have natural gas heat, natural gas appliances and natural gas hot water.

We have a small one bedroom studio apartment over the garage.

When questioning hydro one, they have no answers as to why our electricity bills are so high. But if we don't pay it, they will cut off our service.

WE HAVE NO OPTIONS and NO CHOICE.

Please stop the robbery of our hard earned money.

And give me a break - why should we have to pay for debt recovery, when we weren't even part of the hydro one system when they incurred the debt? It was their bad choices and business decisions that got them into the mess.

They just need to quit. Seriously. Let the CEO give up his million dollar salary.

Please stop this insanity. Now.

NO MORE INCREASES!

Darlene McGregor
