Delivery charges are out of control at Hydro One. Every year they increase at a rate far higher than inflation. The OEB has been letting them off too easy by allowing these rate increases to continue. Their customers have no choice but to pay it since they have a monopoly. It is time to force Hydro One to get their costs under control instead of allowing exorbitant price increases year after year. Hydro One needs to seriously look at their operating costs including wages and benefits of all employees and executives and operate more efficiently.
