I can't believe after the stories that have become public in the last couple of years that there is even the slightest inclination to give Hydro One the go ahead for rate increases in several areas. Have we not suffered enough? People haven't been given the chance to get back on their feet let alone dig out from debt caused solely by Wynne and her Hydro One. It would be an absolute disgrace if you approve these increases and you will be letting Ontarians down yet again.
Do the right damn thing this time! Please!
