I own a Campground and Hydro is my major expense item. I have had to dramatically increase my Seasonal Fees every year to the point that my customer inquiries are dropping off as the fees are too high for many families to consider purchasing a trailer and staying in my type of Trailer Park. Why is the only solution to Hydro's issues a rate increase. Try reducing employee wages and salaries or cut back your work force. There are many other actions Hydro can take that they don't even consider.
