I am currently on long-term disability for MS and Fibromyalgia. I suffer daily from pain and have to take a lot of medications. Every single penny is accounted for with regular bills and medications that aren't covered by insurance companies. I will be homeless if Hydro One is allowed to further increase all of their rates and fees. I don't have one cent extra to spend on these greedy politicians who make so much income they never have to worry about their income like an average family or a special case such as mine. I am disgusted by this application for an increase after Wynne stated she would give us some relief. Tell me, where exactly is this relief going to help if Hydro One is continuously able to increase it's rates and fees while the rest of Canada can enjoy more options than just Hydro One? Unfortunately, I have no other option but to use Hydro One. Why is a company who has THE MONOPOLY in my area allowed to increase their fees and rates when Canadians are already losing their homes because of it? Please, tell me how this makes sense? Seriously, DO NOT consider these rate and fee increases so the Corporate big wigs can fatten their already fat pockets!
