As a young single family, we absolutely cannot afford anymore Hydro Increases! We have a decent income, but yet, every month we are having to "borrow from peter to pay Paul"...which in this case "Paul" is the hydro bill! We shouldn't have to be unable to put our child into normally inexpensive sports and extracurricular activities because of an astronomically high hydro bill. We are diligent with our time of use hydro, and try to do as much during "off peak" as possible, yet it seems to make no difference!!!! We have a 4 yr old home, with everything being energy efficient...from the furnace to appliances to light bulbs...and it seems to make no difference! Hydro One and the Wynne government need to stop bankrupting Ontarians with our Hydro bills! We simply cannot afford it anymore!
