()FR	STAFF INTERROGATORY 7

2 **2.0** Usage Fee

1

- 3 **2.1** Is the allocation of energy volumes and costs between domestic and export
- 4 markets reasonable?
- 5 **2.1** Staff 7

## **6 INTERROGATORY**

- 7 Reference: Exhibit B-1-1, p. 4
- 8 Preamble:
- 9 As noted on p. 4 of Exhibit B-1-1, the IESO's domestic and export customer fees were
- 10 calculated by Elenchus using the updated 2017 business unit budgets and energy data.
- 11 Questions:
- 12 a) Has there been any update to the Elenchus model other than cost inputs? Have any allocation
- 13 factors changed?

## 14 <u>RESPONSE</u>

- 15 a) There have been no updates to the Elenchus cost allocation model. To calculate the 2017 usage
- fees, the IESO requested Elenchus to rerun the same model, using the Board-approved cost
- 17 allocation methodology from its EB-2015-0275 Decision and Order. 2017 business unit budget
- and energy data was used; all other inputs, including the allocation factors, were unchanged.
