Enough is enough. I cannot cut usage anymore and it does not seem to make a difference. The delivery charge is insane and is killing us rural customers.

I am now looking at getting off the grid just to get away from this. I am constantly pay over 300 dollars per month. I am starting to fall behind with everything else just trying to keep up paying hydro. Something has to be done. I see hydro one just bleeding money. They don't seem to care. New everything all the time. We cannot afford this.stop them before it's to late.
