Dear Panel Members,

By now you have heard and read the extreme dissatisfaction of Ontario residents over the continually rising seemingly out of control Hydro rates.

Thus far there has not been any logical reason put forth for the policies that caused this unreasonable burden on Hydro One customers and it appears to be rooted more in political ideology than in any real need. I feel that instead of simply putting your hand out for more and more of taxpayers' money it would be prudent to step back and examine your costs including wages with a fine tooth comb and seriously assess ways of reducing them without affecting customer service. Private companies that do not have the power of monopoly like yourselves are forced to reconcile expenses with income or go out of business. This unchecked waste of taxpayers' money will probably be the undoing of your political masters but that won't undo the suffering of Ontario residents due to the financial burden resulting from a failed political ideology.

In conclusion I can only hope that you will step outside the privileged and protected bubble in which you live and work and consider the good of the people you purportedly serve .
