You greedy f**king fools. Ontario cannot afford any more hydro fees. Not one dollar more. We are broke, freezing in the cold and the dark. You need to get rid of the global adjustment if you do anything, and then the delivery charges. Both are geared towards profit. A public utility that my taxes paid to build does not need to see profits or shareholders. Rural Ontario cannot take any more. It is insane. I deliver mail and I see the number of disconnect notices you send. STOP. And while you are at it stop sending all your propaganda. Who cares what my neighbours use, they don't have the same number animals or people. It is a waste of money, there is your \$2 a month right there. Now screw off and give us a freaking break.
