I am sick-and-tired of the duplicitous electricity shell-game and empty promises.

I object to the application request a distribution rate increase, but they are also applying to have the service charges on disconnection/reconnections, removal of load limiters, account collections and access to their poles all increased.

The application goes on further to say that these increases would be added to your bill before any rebates from the Fair Hydro Act, 2017 are implemented.

You may recall, Premier Wynne promised us electricity rate relief with her government's Fair Hydro Act.
