Ms. Kirsten Walli Board Secretary Ontario Energy Board P.O. Box 2319 2300 Yonge Street, 27<sup>th</sup> Floor Toronto, ON M4P 1E4

### RE: EB-2017-0027 Bluewater Power Distribution Corporation 2018 Rate Application

Dear Ms. Walli

Bluewater Power Distribution Corporation is pleased to submit its Application for 2018 Rates under the 4<sup>th</sup> Generation Incentive Rate-setting plan under the Price Cap IR.

An electronic copy has been submitted to the Board through the RESS system, and two hard copies will be delivered to the OEB office.

The following Excel models will be submitted:

- 2018 Rate Generator Model
- 2018 Rates and Tariffs
- GA Workform

Sincerely,

L. Dugas

Leslie Dugas Director of Regulatory and Customer Service Bluewater Power Distribution Corporation Email: <u>ldugas@bluewaterpower.com</u> Phone: 519-337-8201 Ext 2255

3 (Sched. B)
4 AND IN THE MATTER OF an Application by Bluewater Power

1

8

9

5 Distribution Corporation for an Order or Orders pursuant to section 78 6 of the Ontario Energy Board Act, 1998 for 2018 distribution rates and 7 related matters.

### **APPLICATION**

The Applicant, Bluewater Power Distribution Corporation ("Bluewater"), is a licensed electricity
 distributor operating pursuant to license ED-2002-0517. Bluewater distributes electricity to
 approximately 36,000 customers in the municipalities of the City of Sarnia, the Town of Petrolia,
 the Village of Point Edward, the Village of Oil Springs, the Township of Warwick and the Township
 of Brooke-Alvinston in south-western Ontario.

Bluewater hereby applies to the Ontario Energy Board (the "OEB") for an order or orders made
 pursuant to Section 78 of the Ontario Energy Board Act, 1998, as amended, (the "OEB Act")
 approving just and reasonable rates for the distribution of electricity based on a 2018 4<sup>th</sup>
 Generation Incentive Rate-setting ("2018 IRM") application, under the Price Cap IR effective May
 1, 2018.

Specifically, Bluewater hereby applies for an order or orders granting distribution rates updated
 and adjusted in accordance with Chapter 3 of the Filing Requirements for Electricity Distribution
 Rate Applications updated July 20, 2017 ("Filing Requirements"), including the following:

- a. A Price Cap Adjustment in accordance with the parameters of the 4<sup>th</sup> Generation Incentive
   Regulation for Ontario's Distributors.
- b. an adjustment to the retail transmission service rates as provided in Guideline (G-20080001) on Retail Transmission Service Rates October 22, 2008 (Revision 4.0 June 28, 2012);

- 1c.The continuation of the Low Voltage Service charges, Wholesale Market Service Rate, Rural2Rate Protection Charge;
- d. the disposition of certain deferral and variance account principal balances as at December
  31, 2016 over a one year disposition period, as discussed in Section 5 of the Manager's
  Summary, along with the carrying charges projected to April 30, 2018 in accordance with
  the Section 3.2.5 of the Filing Requirements;
- e. the disposition of the tax sharing amount of \$92,430 including carrying charges. This
  disposition relates to the amount determined in the 2016 IRM application (EB-2015-0053)
  of \$30,493, the amount determined in the 2017 IRM application (EB-2016-0057) in the
  amount of \$30,493 and the amount determined in this current 2018 IRM application also
  in the amount of \$30,493 plus carrying charges until April 30, 2018.
- 12f.The continuation of the Standard Supply Service Charge, Specific Service Charges, microFIT13Service Charge, Retail Service Charges, Transformation and Primary Metering Allowances,14the Smart Metering Entity Charge and Loss Factors as approved in the 2013 Cost of Service15Application EB-2012-0107.
- 16 4. Bluewater is proposing to adjust the residential fixed and variable distribution charges in 17 accordance with Section 3.2.3 of the Filing Guidelines. The proposed change entails increasing 18 the current fixed service charge by \$3.77 per month, and decreasing the current variable charge 19 by \$.0056/kWh and then applying the annual rate adjustment. When applying the annual 20 inflationary adjustment, the total increase to the monthly fixed charge is \$4.21 per month. 21 Although this increase is greater than the threshold test as outlined in section 3.2.3 of the 22 Guidelines (\$4.00 increase), Bluewater proposes it is a reasonable increase given that the overall 23 total bill impact is approximately 1.2% for the average residential RPP customer when 24 incorporating all rate changes and therefore, we submit, the increase to the fixed charge is 25 reasonable.
- 26 5. This Application is supported by written evidence that may be amended from time to time, prior
  27 to the Board's final decision on this Application.

- In the event that the OEB is unable to provide a Decision and Order in this Application for
   implementation by the Applicant as of May 1, 2018, Bluewater requests that the OEB issue an
   Interim Rate Order declaring the current Distribution Rates and Specific Service Charges as interim
   until the decided implementation date of the approved 2018 distribution rates.
- 5 7. In the event that the effective date does not coincide with the OEB's decided implementation
  6 date for 2018 distribution rates and charges, Bluewater requests permission to recover the
  7 incremental revenue from the effective date to the implementation date.
- 8 8. The Applicant requests that, pursuant to Section 34.01 of the OEB's *Rules of Practice and* 9 *Procedure*, this proceeding be conducted by way of written hearing.
- 10 9. The Applicant requests that a copy of all documents filed with the OEB in this proceeding be11 served on the Applicant as follows:

1 2		Manager's Summary
23	Bluewa	ater Power Distribution Corporation ("Bluewater") hereby submits its complete application for
4	the app	proval of distribution rates proposed to be effective May 1, 2018 under the 2018 4 <sup>th</sup> Generation
5	Incenti	ve Rate-setting mechanism, Price Cap IR ("2018 IRM").
6		
7	For pur	poses of the 2018 IRM Application, Bluewater has relied upon the following OEB issued
8	docum	ents and guidelines:
9		
10	•	Chapter 3 of the Filing Requirements for Electricity Distribution Rate Applications – 2017
11		Edition for 2018 Rate Applications, updated on July 20, 2017 ("Filing Requirements")
12	•	Guideline (G-2008-0001) on Retail Transmission Service Rates – October 22, 2008 (Revision
13		4.0, June 28, 2012) known as ("RSTR Guidelines")
14	•	CBR Accounting Guidelines dated July 25, 2016
15	•	Guidance on the Disposition of Accounts 1588 and 1589 – May 23, 2017
16		
17	Listed I	below are the specific items to be addressed in the Manager's Summary:
18		
19	1.	Overview
20	2.	Annual Adjustment
21	3.	Rate Design for Residential Electricity Customers
22	4.	Retail Transmission Service Charges
23	5.	Proposed Deferral and Variance Account Balance Disposition
24	6.	Tax Changes
25	7.	Proposed Tariffs
26	8.	Bill Impacts
27		
28		
29		
30		

# 1 **1. Overview** 2

3	Bluewater's last Cost of Service application was filed under application number EB-2012-0107 for
4	rates effective May 1, 2013. A full settlement was reached by all parties and the OEB issued a
5	Decision and Rate Order on April 25, 2013. The most recent rate application submitted was under the
6	Price cap IR mechanism for rates effective May 1, 2017 under case number EB-2016-0057.
7	
8	There are no outstanding Board Orders affecting this current application.
9	
10	Bluewater will publish the Notice of Application and Hearing upon direction from the OEB.
11	
12	This Application will affect all ratepayers in Bluewater's service territory. A detailed breakdown of
13	the bill impacts for all customers is contained in Table 13 at the end of the Manager's Summary.
14	
15	The internet address for Bluewater Power is <u>www.bluewaterpower.com</u>
16	
17	Bluewater requests that this Application be processed by way of a written hearing.

### 18 2. Annual Adjustment

19

20 Based on the current price cap parameters, the Rate Generator Model reflects an adjustment of 1.6%

- 21 to base distribution rates. That calculation is based on an inflation factor of 1.9%, less a productivity
- factor of 0.0%, and less a stretch factor of 0.3%. The stretch factor of 0.3% is assigned to Bluewater
- 23 based on the PEG Report to the Ontario Energy Board dated August 17, 2017. Bluewater
- 24 acknowledges that the price escalator may change as a result of updated factors.
- 25
- 26
- 27

- 3. Rate Design for Residential Customers 1 2 3 On April 2, 2015, the OEB released its Board Policy: A New Distribution Rate Design for Residential 4 Electricity Customers (EB-2014-0210), which stated that electricity distributors will transition to a fully 5 fixed monthly distribution service charge for residential customers. This is to be implemented over a 6 period of four years, beginning in 2016 in most cases. 7 8 Bluewater is proposing the 3rd of 4 annual increases to the fixed charge. The rate model produces an 9 increase to the base fixed charge of \$3.77 and a decrease to the variable charge of \$.0056/kWh in the 10 2018 rate year. Although the change to the base fixed rate is below the \$4.00 threshold per month, 11 when layering on the annual price cap rate adjustment the resulting total increase is \$ 4.21 to the 12 fixed charge and a decrease of \$.0055/kWh to the variable charge. Bluewater proposes that even 13 though the total increase is \$4.21 to the fixed charge, the overall bill impact for customers including 14 all changes to rates, results in a rate increase for the average residential RPP customer of 1.2%. We 15 therefore submit the increase to the fixed charge of \$4.21 is reasonable. 16 17 The Filing Requirements also require distributors to assess the total bill impacts for residential customers at the 10<sup>th</sup> consumption percentile. Bluewater extracted monthly consumption for the full 18 19 year 2016 for each residential customer. Customers that did not have a full 12 months of 20 consumption or were below an average usage of 50 kWh per month on an annualized basis were 21 excluded. The resulting annual consumption was assessed using the excel percentile function, and the 22 10<sup>th</sup> percentile equated to an annual consumption of 3,577 kWh or 298 kWh per month. 23 24 The Filing Requirements indicate that if the total bill impact for these customers is 10% or greater, a 25 distributor must file a mitigation plan. In Bluewater's case, a customer with a usage of 298 kWh per 26 month is expected to see an increase of 5.3% on a total bill basis which is below 10%. 27 28 The bill impacts for Residential customers are presented in Table 1 below and the bill impacts for the 29 remaining rate classes are detailed in Section 8 of the Manager's Summary.

#### 4. Retail Transmission Service Rates 5

- 6
- 7 Bluewater is charged retail transmission service rates by both the Independent Electricity System
- 8 Operator ("IESO"), and by Hydro One Networks, and in turn has established approved rates to charge
- 9 customers in order to recover those expenses.
- 10
- 11 The OEB has provided sheets within the Rate Generator Model ("the Model") to compare the current
- 12 retail transmission costs and retail transmission revenues to the projected transmission costs.
- 13 Bluewater has completed the Model utilizing the best available information; Bluewater acknowledges
- 14 that the rates are expected to be updated with potential changes to one, or both, of the IESO or Hydro
- 15 One transmission service rates. Those updates will be incorporated into this application prior to a final
- 16 decision by the Board.
- 17
- 18 The 2018 IRM rate generator model imports the billing determinants from the most recent data 19 provided in the RRR filing dated April 30, 2017. Bluewater confirms the data in the rate generator 20 model is correct and an excerpt from Section 2.1.5 of the RRR filing is presented in Table 2 below with 21 a comparison to the data included in Sheet 4 of the OEB's 2018 IRM model as presented in Table 3. 22 The loss factor used in Sheet 10 of the Model is the approved loss factor as approved in 2013. 23
- 24
- 25

1 2	5. Proposed Deferral and Variance Account Disposition
3	This section of the Application deals with the following topics:
4	
5	A. Group 1 Disposition
6	B. Wholesale Market Participants and Global Adjustment
7	C. Class A customers and Global Adjustment
8	D. CBR Class B Disposition
9	E. Overall Settlement Process with IESO
10	F. Global Adjustment Workform
11	
12 13	A - Group 1 Disposition
14	Bluewater is proposing to dispose of audited balances as of December 31, 2016. Provided below in
15	Table 4 is the detailed claim by account number. The balance in the Group 1 accounts (Accounts
16	1550, 1551, 1580, 1584, 1586, 1588, 1589 and 1595) is (\$1,077,782) which leads to a threshold test
17	value of (\$.0011)/kWh which exceeds the materiality threshold of +/-\$0.001/kWh as defined in the
18	Filing Requirements.
19	
20	Bluewater is proposing to dispose of the balance over a one year period commencing May 1, 2018.
21	
22	Bluewater has calculated carrying charges from January 1, 2017 to April 30, 2018 at the Board's
23	prescribed interest rate of 1.10%.
24	
25	Bluewater confirms that no adjustments have been made to any deferral or variance account balances
26	previously approved by the OEB on a final basis, and we confirm the balances as reported in the RRR
27	filings match those presented in the continuity schedule in this application.
28	
29	Bluewater is not proposing recovery of lost revenue related to conservation activities in this
30	application. The variance between the amount of conservation included in the 2013 rebasing

- 1 application and the actual results for 2016, including persistence, is less than Bluewater's materiality
- 2 threshold, therefore Bluewater will hold the amount for disposition in a future application.
- 3
- 4

lotal including Account 1568			(1,077,782)	(1,346,281)	(4

- 5 6
- 7

8 There is one variance between the amounts reported as of December 31, 2016 and the RRR balances

9 as shown in Table 4 above, and it relates to the following:

• Account 1580 in the Variance Column shows a variance of \$243,819 which is the value in the

- 11 WMS sub-account CBR Class B. The value presented under the column 'As of Dec 31, 2016'
- 12 for RSVA Wholesale Market Service charge of -\$3,006,185 includes the amount of \$243,819
- 13 pertaining to WMS sub-account CBR Class B. Therefore there is no variance on an aggregate
- 14

level.

- 15
- 16
- 17

1 **B** - Wholesale Market Participants and Global Adjustment 2 3 Bluewater has two wholesale market participants ("WMP"), one in the General Service > 50 kW rate 4 class and one in the Large Use rate class. WMP's do not contribute to the variances in Accounts 1580, 5 1588 or 1589; therefore, the WMP customers should not be party to the disposition of these 6 accounts. 7 8 Consequently, and in accordance with Section 3.2.5.1 of the Filing Requirements, Bluewater agrees 9 with the calculations presented in the 2018 IRM Rate Model in determining the deferral and variance 10 account balances to be allocated to WMP's and non-WMP's. 11 C - Class A Customers and Global Adjustment 12 13 14 The OEB has noted in the Filing Requirements that Class A customers pay global adjustment on an 15 'actual' basis and therefore no variance accumulates in Account 1589 related to Class A customers 16 once they become Class A customers. Thus, these Class A customers in addition to WMP's should not 17 be party to the disposition in Account 1589. In 2014, Bluewater had two Class A customers, in 2015 18 two additional customers chose to participate in the Industrial Conservation Initiative ("ICI"), and in 19 2016 two additional customers chose to participate in the ICI, which brings the total number of Class A 20 customers to six at the end of 2016. However, the commentary below only relates to the two new 21 Class A 'transition' customers in 2016. 22 23 Effective January 1, 2016, all customers within the General Service 1000-4999 kW ("Intermediate") 24 rate class, and customers within the Streetlighting rate class have paid Global Adjustment ("GA") 25 based on the 'actual GA rate'. These classes of customers are billed in our billing system on a calendar 26 month basis, therefore are able to be charged the actual GA rate because the GA rate as produced by 27 the IESO is a calendar month rate. Customers in the other rate classes are billed based on the 1<sup>st</sup> 28 estimate GA rate because they are not all billed on a calendar month basis. 29

1	As a result of this change, effective for consumption as of January 1, 2016 the customers in the
2	Intermediate and Streetlighting rate classes have not contributed to the balance in Account 1589 and
3	therefore are not party to the disposition of the balance in this account.
4	
5	Bluewater reached out to OEB Board Staff to request that the 2018 IRM Model be unlocked (for Sheet
6	4 Billing Determinants) so that the kWh and kW can be removed related to the Intermediate and
7	Streetlighting customers in order that the residual kWh be allocated to the remaining non-RPP Class B
8	customers that did contribute to the balance in Account 1589. Table 5 below details the kWh and kW
9	related to the Intermediate and Streetlighting customers that were deducted to determine the

- 10 remaining Non-RPP customers kWh and kW.
- 11
- -

14 15

16 The OEB has included methodology and calculations in the 2018 IRM rate model (Sheet 6, and Sheet

17 6.1a) to appropriately allocate a portion of the amounts accumulated in Account 1589 for the period

18 of time (January to June 2016) prior to customers becoming Class A customers. As noted above, there

19 were 2 new transition Class A customers in 2016, however they were both in the Intermediate rate

20 class for all of 2016, therefore for the period of time prior to becoming Class A (January to June 2016)

1	they were charged GA based on the actual GA rate and thus no amount was booked to Account 1589
2	related to these 2 transition customers. As a result, Sheet 6.1a was not required.
3	
4	The total amount requested for disposition for Account 1589 – RSVA Global Adjustment is -\$353,663,
5	to be returned to the remaining non-RPP Class B, Non-WMP, non-Class A customers. Sheet 6.1 GA in
6	the 2018 IRM model calculates the GA rate rider for the applicable customers, and the rate is

- 7 -\$.0019/kWh and is detailed in Table 6 below. Bluewater proposes to return this amount over a one
- 8 year period commencing May 1, 2018.
- 9
- 10

### Table 7 – Deferral and Variance Account Balances for Proposed Disposition

2

1

3

## 4

5

### D - Capacity Based Demand Response (CBR)

6 Bluewater is proposing to dispose of 'Variance WMS - Sub-Account CBR – Class B' through this

7 application. The total amount including carrying charges is \$56,310.

8

9 Bluewater has 2 customers that transitioned to Class A in 2016, therefore they did contribute to the

- 10 variance in Sub-Account CBR – Class B for the period January to June 2016. The 2018 IRM model
- 11 includes Sheets 6.2 and 6.2a which allocates a portion of the CBR Class B to the transition customers.
- 12
- 13

1 However, Bluewater had to create an alternate sheet 6.2a in order to correctly calculate the portion 2 allocated to the transition Customer 1 and transition Customer 2. The alternate sheet is required 3 because one of the customers moved from the GS 1000-4999 kW rate class to the Large Use rate class 4 effective August 2017. An excerpt from Sheet 6 is detailed below. The customer was in the GS 1000-5 4999 for the period Jan-June therefore the kWh and kW are correctly presented in the GS 1000-4999 6 rate class below (as well as in Sheet 4). Thus, the kWh presented in January to June of 23,190,082 7 pertains to 2 customers not one. However, in order to correctly determine the amount to be 8 allocated to Customer 1 and Customer 2 an alternate sheet was created that splits the 23,190,082 9 kWh for the two customers, to determine the percentage allocation for each and is presented in Table

- 10 9 further below.
- 11

### 12

### Table 10 – Proposed Disposition for Sub-Account CBR – Class B

1 2	E - Settlement Process with IESO
3	Section 3.2.5.2 of the Filing Requirements requests that distributors provide a description of its
4	settlement process with the IESO or host distributor, and Bluewater responds as follows:
5	
6	• Bluewater purchases energy from three sources: the IESO, Hydro One Networks Inc.
7	("HONI"), and retail embedded generators. This power is purchased at the Hourly Ontario
8	Energy Price ("HOEP"). The power is then sold to our customers at the Regulated Price Plan
9	Time of Use ("RPP TOU") or RPP Tiered Rates, weighted-average price ("WAP") or HOEP and
10	the settlement process for each group of customers is detailed below:
11	
12	1. Embedded Generation
13	a. Bluewater pays the embedded generator their contract price for the
14	generation injected to the distribution system.
15	b. Bluewater collects from the IESO the difference between HOEP and the
16	contract price it pays to the generator.
17	c. All settlement for embedded generators is based on actual billed interval
18	consumption so there is no estimation.
19	2. Class B NON-RPP
20	a. Non-RPP customers pay either the HOEP or WAP for commodity charges and
21	they pay GA.
22	b. When billing Class B customers for Residential, GS<50, GS>50, Unmetered
23	Scattered Load and Sentinel lighting, Bluewater calculates a weighted average
24	1 <sup>st</sup> estimate Global Adjustment ("GA"), which is weighted by NSLS data for the
25	specific billing period of each customer, and that rate is applied to the
26	customer's total consumption for the billing period.
27	c. Any difference between the customer billed 1 <sup>st</sup> Estimate GA and the actual GA
28	from the IESO and HONI invoice is booked to the applicable GA variance
29	account.

1	d.	For customers in the GS>50 – Intermediate and Streetlighting rate classes, an
2		enhancement to the settlement process has been made whereby as of
3		January 1, 2016 the customers are charged the Actual GA each month rather
4		than the $1^{st}$ estimate GA. We are able to do this for these rate classes, as all
5		customers within each rate class are billed on a calendar month basis.
6		Therefore, we are able to wait to bill these customers until the Actual GA rate
7		is available from the IESO and apply the Actual rate to customer's bills. This
8		coincides with the same rate we are charged from the IESO which results in
9		no variance for these classes being booked to the Global Adjustment variance
10		account.
11	3. RPP	
12	а.	RPP Customers pay either TOU or Tiered Rates for commodity and those rates
13		include GA.
14	b.	For RPP customers, Bluewater performs all settlement calculations during the
15		billing process, on actual billed consumption.
16	С.	During the billing process, the system calculates how much GA, using the
17		weighted average $1^{st}$ Estimate, is applicable to the customer's billed
18		consumption for the billing period. This value is booked to the applicable GL
19		account and submitted to the IESO for settlement (i.e. to be recoverable from
20		the IESO if it is a debit balance). This is required because the IESO and HONI
21		power bill invoices include a GA charge for 100% of Bluewater's load. Thus,
22		we submit for recovery of the GA portion related to the RPP load given that
23		RPP load does not attract GA charges.
24	d.	During the billing process, the system calculates the HOEP/WAP that is
25		applicable to the customer's billed consumption and this value is booked to
26		the applicable GL account.
27	e.	During the billing process, the system calculates how much RPP (either TOU or
28		at Tiered Rates) is applicable to the customer's billed consumption and this
29		value is booked to the applicable GL account.

1	f. Th	ne difference between part (d) and (e) above is then submitted to the IESO
2	fo	r settlement (i.e. to be recoverable from the IESO if it is a debit balance)
3		
4	4. Class A cu	stomers
5	a. Ea	ach month the IESO allocates an amount of GA to the Bluewater invoice
6	re	lated to Class A customers. That amount is fully allocated to each of the
7	Cl	ass A customers based on their peak demand factor established for the
8	ye	ear.
9	b. Th	nere is no variance accumulated as the entire GA value is allocated each
10	m	onth to the applicable customers.
11		
12	5. Update re	lated to the OEB letter dated May 23, 2017 'Guidance on the Disposition of
13	Accounts	1588 and 1589'
14		
15	a. Bl	uewater would like to outline a new process pursuant to the OEB letter
16	da	ated May 23, 2017 which outlined a mandatory true up of RPP settlement
17	cla	aims relating to GL 1588 (Cost of Power) and GL 1589 (Global Adjustment).
18	b. O	ur monthly IESO submission for RPP settlement has always been based on
19	bi	llings in the respective month, which in effect was our estimate for the RPP
20	se	ttlement amounts for both COP and GA. This will continue in the future for
21	ea	ach 1598 submission.
22	c. Th	ne new true-up process calculates what the RPP settlement should have
23	be	een for each month based on actual rates and actual calendar month
24	сс	onsumption once known.
25	d. Th	nus, the true-up amount is the difference between the original estimate for
26	th	e applicable month, and the actual amount once known.
27	e. Th	ne true-up amount is known two months after the original IESO submission
28	dı	ue to the availability of consumption data and actual rates.

1	f.	The true-up amount is recorded in the applicable GL account two months
2		after the month for which the true-up pertains, and will then form part of that
3		month's RPP settlement claim.
4	g.	The actual calendar month consumption data comes from metered data,
5		using smart meters in most cases. Where smart meter data is not available, a
6		prorated KWh is calculated for a calendar month using meter reads and the
7		Net System Load Shape (NSLS) (i.e. for Tier 1 and Tier 2 customers).
8	h.	The Hourly Ontario Energy Price (HOEP) is used when calculating the true-up
9		for smart meter consumption.
10	i.	Bluewater Power's Weighted Average Price (WAP) is used when calculating
11		the true-up for non-smart meter prorated consumption (Tier 1 and Tier 2).
12	j.	Bluewater Power started this new true-up process for consumption effective
13		January 1, 2017.
14	k.	Bluewater Power informed the IESO that the first true-up, which
15		encompassed the period from January to June 2017, was submitted with the
16		August 2017 settlement claim. Thereafter, it will be submitted monthly.
17	Ι.	The audited balances in GL 1588 and 1589 at December 31, 2016 (and each
18		prior year end) include an accrual representing the unbilled RPP consumption.
19		This, along with the reversal of the December 31, 2015 accrual, and billings
20		during 2017, ensures that both accounts reflect 2017 calendar month
21		consumption.
22	m.	No RPP settlement true-up claims have been made with the IESO for the last
23		quarter of 2016. Accordingly, no adjustment is made in the DVA continuity
24		schedule as would otherwise be required as per the OEB letter dated May 23,
25		2017.
26		
27	Bluewater confirms that	at it uses accrual accounting for financial reporting purposes each month and at
28	year end.	
29		
30		

1 2

### F. Global Adjustment Workform

Starting for 2018 rate applications, the OEB has introduced a 'GA Analysis Workform' which compares
the general ledger principal balance to an expected principal balance based on monthly GA volumes,
revenues and costs.

6

7 Bluewater has two rate classes that are billed on the Actual GA rate (GS 1000-4999 kW and

8 Streetlighting), and the remaining Class B customers are billed based on the 1<sup>st</sup> Estimate GA.

9 Therefore the GA workform has been modified to add columns to segregate the kWh related to the

10  $\,$  customers charged the Actual GA rate from the remaining Class B customers who are charged based

11 on the 1<sup>st</sup> Estimate GA rate. The net result comparing the amount collected from customers for GA

12 and the amount paid related to GA is a variance of approximately \$127,000 (before reconciling

13 adjustments) on a total GA expense amount of almost \$29 million which is a -0.8% variance and is

14 below the OEB determined materiality threshold of +/- 1%. When including a reconciling item related

15 to the impact of short and long term load transfers, the variance is -0.74%.

16

### 17

### 18 6. Tax Changes

19

Bluewater's corporate tax rate included in its 2013 Cost of Service Application is 24.44%. The current
 corporate tax rate is 26.5%

22

The OEB has determined that under the IRM plan, a 50/50 sharing of the impact of currently known
legislated tax changes as applied to the tax level reflected in the Board approved base rates for a
distributor applies.

26

27 The difference between the tax rate embedded in base distribution rates, and the current tax rate

28 leads to an incremental tax liability of \$60,985 per year. When shared 50/50, the amount to be

29 recovered from rate payers is \$30,493.

30

1	In Bluewater's 2016 IRM application EB-2015-0053, the amount of \$30,493 was deemed immaterial
2	and was booked to Account 1595 for future disposition, as noted in page 5 of the Decision (excerpt
3	below):
4	
	Findings
5	The OEB agrees with Bluewater Power's request to record this amount in the variance account for future disposition. Accordingly, The OEB directs Bluewater Power to record the tax sharing charge of \$30,493 in variance Account 1595 by June 30, 2016 for disposition at a future date.
6	
7	In Bluewater's 2017 IRM application EB-2016-0057, the amount of \$30,493 was also booked to
8	Account 1595 for future disposition, as noted on page 6 of the Decision (excerpt below):
9	
	Findings
	The OEB agrees with Bluewater Power's proposal. Accordingly, the OEB directs Bluewater Power to record the tax sharing of \$30,493 in variance Account 1595 by June 30, 2017 for disposition at a future date.
10 11	
12	The current 2018 IRM application represents the third year of the accumulation of the 50% portion of
13	the tax savings amount. At this time, Bluewater requests a rate rider in order to recover the
14	accumulated amount of \$92,430 including carrying charges. Table 11 below details the principal
15	amounts and the carrying charges projected to April 30, 2018.
16

31,136

30,801

30,493

92,430

1 Given that Bluewater is requesting disposition of three years of tax savings amounts, Sheet 9 of the

2 2018 IRM model required modifications in order to reflect disposition of \$92,430 rather than the one

3 year amount of \$30,493. Table 12 below utilizes the billing determinants as produced from Sheet 9,

4 but calculates the rate riders based on the proposed disposition of \$92,430 over a one year period

5 commencing May 1, 2018. The rate riders presented below were entered into 'Sheet 18. Additional

6 Rates' on the 2018 IRM model, and are reflected in the Final Tariff Schedule.

7

#### Table 12 – Tax Sharing Rate Rider Calculation

Rate Class		Total kWh (most recent RRR filing)	Total kW (most recent RRR filing)	% Total Revenue (Sheet 9 calculation)	Allocation of Tax Savings by Rate Class	Distribution Rate Rider	
RESIDENTIAL SERVICE CLASSIFICATION	kWh	254,829,615		53.7%	49,635	0.13	\$/customer
GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION	kWh	103,858,081		14.0%	12,940	0.0001	kWh
GENERAL SERVICE 50 TO 999 kW SERVICE CLASSIFICATION	kW	207,887,226	575,500	15.6%	14,419	0.0251	kW
GENERAL SERVICE 1,000 TO 4,999 kW SERVICE CLASSIFICATION	kW	156,593,665	320,386	4.8%	4,437	0.0138	kW
LARGE USE SERVICE CLASSIFICATION	kW	281,637,471	436,453	7.6%	7,025	0.0161	kW
UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION	kWh	2,221,667		0.5%	462	0.0002	kWh
SENTINEL LIGHTING SERVICE CLASSIFICATION	kW	497,069	1,205	0.3%	277	0.2301	kW
STREET LIGHTING SERVICE CLASSIFICATION	kW	5,119,606	13,686	3.5%	3,235	0.2364	kW
Total		1,012,644,401	1,347,230	100%	\$92,430

### 10 **7. Proposed Rates and Tariffs**

11

12 The rates proposed in this application are found at Tab 5 – Proposed Rates, and the detailed bill

13 impacts by rate class are found at Tab 6 – Bill Impacts.

14

### 8. Bill Impacts

The bill impacts from the proposed rates are summarized in Table 13 below.

7

1 2

### Table 13 – Proposed Monthly Bill Impacts

			A (I	Savin		de	CBR, S	ounts, LV, ME)		C = B + (I	- 1		Total = A + Commo	odity

## Incentive Regulation Model for 2018 Filers

		Version	1.0
Utility Name	Bluewater Power Distribution Corporation		
Assigned EB Number	EB-2017-0027		
Name of Contact and Title	Leslie Dugas		
Phone Number	519-337-8201 Ext 2255		
Email Address	Idugas@bluewaterpower.com		
We are applying for rates effective	May 1, 2018		
Rate-Setting Method	Price Cap IR		
Please indicate in which Rate Year the Group 1 accounts were last cleared <sup>1</sup>	2015		
Please indicate the last Cost of Service Re-Basing Year	2013		

Legend

Pale green cells represent input cells.

Account Descriptions	Account Number

If you have identified any issues, please contact the

If a distributor uses the actual GA price to bill non-RPP Class B customers for an entire rate class, it must exclude these customers from the allocation of the GA balance and the calculation of the resulting rate riders. These rate classes are not to be charged/refunded the general GA rate rider as they did not contribute to the GA balance.

Please contact the OEB to make adjustments to the IRM rate generator for this situation.

### **Incentive Regulation Model for 2018 Filers**

The purpose of this tab is to calculate the GA rate riders for all current Class B customers who did not transition between Class A and B in the period since the Account 1589 GA was last disposed. Calculations in this tab will be modified upon completion of tab 6.1a, which allocates a portion of the GA balance to transition customers, if applicable. Effective January 2017, the billing determinant and all rate riders for the disposition of GA balances will be calculated on an energy basis (kWhs) regardless of the billing determinant used for distribution rates for the particular class (see Chapter 3, Filing Requirements, section 3.2.5.2)

Ð

### **Incentive Regulation Model for 2018 Filers**

This tab allocates the GA balance to transition customers (i.e Class A customers who were former Class B customers and Class B customers who were former Class A customers) who contributed to the current GA balance. The tables below calculate specific amounts for each customer who made the change. The general GA rate rider to non-RPP customers is not to be charged to the transition customers that are allocated amounts in the table below. Consistent with prior decisions, distributors are generally expected to settle the amount through 12 equal adjustments to bills.

Total		1,012,644,401	1,347,230	100%	\$92,430		

\$92,430 represents the three year accumulation of the 50/50 portion of the tax savings amounts - 2016 IRM, 2017 IRM and 2018 IRM

## **Incentive Regulation Model for 2018 Filers**

Columns E and F have been populated with data from the most recent RRR filing. Rate classes that have more than one Network or Connection charge will notice that the cells are highlighted in green and unlocked. If the data needs to be modified, please make the necessary adjustments and note the changes in your manager's summary. As well, the Loss Factor has been imported from Tab 2.

Rate Class	Rate Description	Unit	Rate	Non-Loss Adjusted Metered kWh	Non-Loss Adjusted Metered kW	Applicable Loss Factor	Loss Adjusted Billed kWh

### **Incentive Regulation Model for 2018 Filers**

In the green shaded cells, enter billing detail for wholesale transmission for the same reporting period as the billing determinants on Tab 10. For Hydro One Sub-transmission Rates, if you are charged a combined Line and Transformer connection ration ranse completed. If any of the Hydro One Sub-transmission rates columns, are completed. If any of the Hydro One Sub-transmission rates approved for that time period. If data has been entered correctly, please provide explanation for the discrepancy in rates.

Total including deduction for Low Voltage Switchgear Credit

## Incentive Regulation Model for 2018 Filers

The purpose of this sheet is to calculate the expected billing when forecasted 2018 Uniform Transmission Rates are applied against historical 2016 transmission units.

Debt Retirement Charge (DRC)

Debt Retirement Charge (DRC)

0.0070 If your utility's DRC differs from the value in Cell D29, please update this value.

In the Green Cells below, enter any proposed rate riders that are not already included in this model (e.g.: proposed ICM rate riders). Please note that existing SMIRR and SM Entity Charge do not need to be included below.

In column A, the rate rider descriptions must begin with "Rate Rider for".

In column B, choose the associated unit from the drop-down menu.

In column C, enter the rate. All rate riders with a "\$" unit should be rounded to 2 decimal places and all others rounded to 4 decimal places.

In column E, enter the expiry date (e.g. April 30, 2019) or description of the expiry date in text (e.g. the effective date of the next cost of service-based rate order).

In column G, choose the sub-total as applicable in the bill impact calculation from the drop-down menu.

\*Non-RPP Class B consumption reported in this table is not expected to directly agree with the Non-RPP Class B Including Loss Adjusted Billed Consumption in the GA Analysis of Expected Balance table below. The difference should be equal to the loss factor. uplifted Non-RPP Class 293,772,148

Note 3 GA Billing Rate

#### GA is billed on the

GA Billing Rate Description

Customers in the General Service 1000-4999 kW (Intermediate) and Streetlighting rate classes are billed based on the Actual GA rate, all other Class B non-RPP customers are billed based on the First Estimate rate. The GS 1000-4999 and Streetlighting are able to be billed on the Actual GA rate because all customers within each of the rate classes are billed on a calendar month basis.

#### Note 4 Analysis of Expected GA Amount

#### Additional Notes and Comments

Bluewater has access to more precise calendar month data at a high level (not by rate class yet), mainly through access to the smart meter data, and customers who are already on interval meters. This has allowed us to more closely estimate the GA variance rather than using the unbilled estimates and true-ups. Therefore columns J & K are blank in the table above, and instead, calendar month data is presented.

The value for 'E' is 281,903,990 kWh related to Non-RPP Class B customers. This value uplifted by the approved loss factor of 1.0421 = 293,772,148 kWh. This values varies from the total of Column "F' of 294,083,798,by 0.1% which is immaterial. This variance is related to using more presise calendar month data from our data repository for the GA analysis.

# 4 – Current Rates

Schedule A To Decision and Rate Order Tariff of Rates and Charges OEB File No: EB-2016-0057 DATED: March 30, 2017

## **Bluewater Power Distribution Corporation** TARIFF OF RATES AND CHARGES Effective and Implementation Date May 1, 2017

This schedule supersedes and replaces all previously

approved schedules of Rates, Charges and Loss Factors

EB-2016-0057

## **RESIDENTIAL SERVICE CLASSIFICATION**

All service supplied to single-family dwelling units for domestic or household purposes shall be classed as residential service. Where electricity service is provided for combined residential and business purposes (including agricultural usage) and the wiring does not provide for separate metering, the classification shall be in the discretion of Bluewater Power Distribution Corporation ("Bluewater Power") and shall be based on such considerations as the estimated predominant consumption or the municipal tax roll classification. A residential customer may be found in a detached, semi-detached, linear row housing, apartment building or mixed-use building. Where more than one dwelling is served by a single meter, that service shall be considered a General Service Customer. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

approved schedules of Rates, Charges and Loss Factors

EB-2016-0057

## GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification applies to a customer not designated as Residential, and that over a twelve month period has, or a new customer forecast to have, an average monthly peak demand less than 50 kW, and has a monthly peak demand that never exceeds 100 kW. Bluewater Power shall review this rate class designation on an annual basis and the customer's designated rate class may change as a result. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## GENERAL SERVICE 1,000 TO 4,999 KW SERVICE CLASSIFICATION

This classification applies to a customer not designated Residential, and that: over a twelve month period has, or a new customer forecast to have, an average monthly peak demand equal to or greater than 1,000 kW and less than 5,000 kW. This rate class designation is reviewed on an annual basis and the customer's designated rate class may change as a result. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of WMS – Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Service Charge	\$	3,316.43

## LARGE USE SERVICE CLASSIFICATION

This classification applies to a customer not designated as Residential, and that over 12 consecutive billing periods has, or a new customer forecast to have, an average monthly peak demand equal to or greater than 5,000 kW. This rate class designation is reviewed on an annual basis and the customer's designated rate class may change as a result. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of WMS – Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account whose average monthly maximum demand is less than, or a new customer forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by Bluewater Power and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## **RESIDENTIAL SERVICE CLASSIFICATION**

All service supplied to single-family dwelling units for domestic or household purposes shall be classed as residential service. Where electricity service is provided for combined residential and business purposes (including agricultural usage) and the wiring does not provide for separate metering, the classification shall be in the discretion of Bluewater Power Distribution Corporation ("Bluewater Power") and shall be based on such considerations as the estimated predominant consumption or the municipal tax roll classification. A residential customer may be found in a detached, semi-detached, linear row housing, apartment building or mixed-use building. Where more than one dwelling is served by a single meter, that service shall be considered a General Service Customer. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## **GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION**

This classification applies to a customer not designated as Residential, and that over a twelve month period has, or a new customer forecast to have, an average monthly peak demand less than 50 kW, and has a monthly peak demand that never exceeds 100 kW. Bluewater Power shall review this rate class designation on an annual basis and the customer's designated rate class may change as a result. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## **GENERAL SERVICE 50 TO 999 KW SERVICE CLASSIFICATION**

This classification applies to a customer not designated as Residential, and that over a twelve month period has, or a new customer forecast to have, an average monthly peak demand equal to or greater than 50 kW and less than 1,000 kW. This rate class designation is reviewed on an annual basis and the customer's designated rate class may change as a result. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## **GENERAL SERVICE 1,000 TO 4,999 KW SERVICE CLASSIFICATION**

This classification applies to a customer not designated Residential, and that: over a twelve month period has, or a new customer forecast to have, an average monthly peak demand equal to or greater than 1,000 kW and less than 5,000 kW. This rate class designation is reviewed on an annual basis and the customer's designated rate class may change as a result. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## LARGE USE SERVICE CLASSIFICATION

This classification applies to a customer not designated as Residential, and that over 12 consecutive billing periods has, or a new customer forecast to have, an average monthly peak demand equal to or greater than 5,000 kW. This rate class designation is reviewed on an annual basis and the customer's designated rate class may change as a result. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account whose average monthly maximum demand is less than, or a new customer forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by Bluewater Power and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

## APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

## **RETAIL SERVICE CHARGES (if applicable)**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing monthly charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing monthly credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail		
Settlement Code directly to retailers and customers, if not delivered electronically through the		
Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

Effective and Implementation Date May 1, 2018

This schedule supersedes and replaces all previously

approved schedules of Rates, Charges and Loss Factors

EB-2017-0027

## LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be in	nplemented
upon the first subsequent billing for each billing cycle.	
Total Loss Factor - Secondary Metered Customer < 5,000 kW	1.0421
Total Loss Factor - Secondary Metered Customer > 5,000 kW	1.0170
Total Loss Factor - Primary Metered Customer < 5,000 kW	1.0316
Total Loss Factor - Primary Metered Customer > 5,000 kW	1.0069

# 6 – Bill Impacts

# Ontario Energy Board Incentive Regulation Model for 2018 Filers

The bill comparisons below must be provided for typical customers and consumption levels. Bill impacts must be provided for residential customers consuming 750 kWh per month and general service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW. Include bill comparisons for Non-RPP (retailer) as well. To assess the combined effects of the shift to fixed rates and other bill impacts associated with changes in the cost of distribution service, applicants are to include a total bill impact for a residential customer at the distributor's 10th consumption percentile (In other words, 10% of a distributor's residential customers consume at or less than this level of consumption on a monthly basis). Refer to section 3.2.3 of the Chapter 3 Filing Requirements For Electricity Distribution rate Applications.

For certain classes where one or more customers have unique consumption and demand patterns and which may be significantly impacted by the proposed rate changes, the distributor must show a typical comparison, and provide an explanation.

#### Note:

1. For those classes that are not eligible for the RPP price, the weighted average price including Class B GA through end of May 2017 of \$0.1101/kWh (IESO's Monthly Market Report for May 2017, page 22) has been used to represent the cost of power. For those classes on a retailer contract, applicants should enter the contract price (plus GA) for a more accurate estimate. Changes to the cost of power can be made directly on the bill impact table for the specific class.

2. Please enter the applicable billing determinant (e.g. number of connections or devices) to be applied to the monthly service charge for unmetered rate classes in column N. If the monthly service charge is applied on a per customer basis, enter the number "1". Distributors should provide the number of connections or devices reflective of a typical customer in each class.

Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.

#### Table 1

RATE CLASSES / CATEGORIES (eg: Residential TOU, Residential Retailer)	Units	RPP? Non-RPP Retailer? Non-RPP Other?
