ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Sched. B), as amended (the “OEB Act”) and the *Municipal Franchises Act*, R.S.O. 1990, c. M.55, as amended (the “MF Act”);

AND IN THE MATTER OF an application under section 36 of the OEB Act for an order or orders approving a rate to be applied as a System Expansion Surcharge in respect of each Community Expansion Project by Enbridge Gas Distribution Inc.;

AND IN THE MATTER OF an application by Enbridge Gas Distribution Inc. under section 90 of the OEB Act for an order or orders granting leave to construct natural gas distribution pipelines and ancillary facilities to serve the community of Fenelon Falls in the City of Kawartha Lakes;

AND IN THE MATTER OF an application under section 8 of the MF Act for an order or orders granting a Certificate of Public Convenience and Necessity to Enbridge Gas Distribution Inc. for the construction of works in the City of Kawartha Lakes.

LEAVE TO CONSTRUCT APPLICATION: FENELON FALLS PIPELINE PROJECT

1. The Applicant, Enbridge Gas Distribution Inc. (“Enbridge”), is an Ontario corporation with its head office in the City of Toronto. It carries on the business of selling, distributing, transmitting and storing natural gas within the province of Ontario.
2. This Application is made pursuant to the guidance provided by the Ontario Energy Board (the “Board”) in its EB-2016-0004 Generic Community Expansion Decision with Reasons (“Community Expansion Decision”) issued on November 17, 2016. In accordance with the findings made by the Board in the Community Expansion Decision, Enbridge proposes a System Expansion Surcharge (“SES”) to be paid by all new customers served by Community Expansion Projects undertaken by Enbridge.
3. The proposed SES is a fixed volumetric rate of \$0.23 per cubic metre that will be charged in addition to Enbridge’s base distribution rates as approved by the Board from time to time. Enbridge hereby applies to the Board under section 36 of the OEB Act for approval

of the SES to be charged to all new customers taking gas distribution service from a Community Expansion Project.

4. Enbridge proposes to undertake a Community Expansion Project, in respect of which the SES would apply, to serve the community of Fenelon Falls in the City of Kawartha Lakes (the "Project"). The Board gave notice of Enbridge's proposal to serve Fenelon Falls and requested expressions of interest from any other parties with plans to provide natural gas services to the community, but no such expressions of interest were received. Accordingly, this Application does not engage the competitive process contemplated in the Community Expansion Decision.
5. For the purposes of providing natural gas service to Fenelon Falls, Enbridge proposes to build two natural gas pipelines (the "Facilities"). A map showing the proposed pipeline routes can be found at Exhibit C, Tab 1, Schedule 1, Attachment 1 of the pre-filed evidence filed together with this Application.
6. The proposed Facilities are comprised of two segments; the Sunderland Segment of reinforcement pipeline and the Fenelon Falls Segment of distribution pipeline. The Sunderland Segment consists of approximately 8 kilometres of Nominal Pipe Size ("NPS") 6 inch steel pipeline plus ancillary facilities. The Fenelon Falls Segment consists of approximately 29 kilometres of a combination of NPS 6 inch and NPS 4 inch steel and polyethylene pipeline, together with ancillary facilities.
7. The Sunderland Segment would originate near the point where Highway 7/12 intersects with Regional Road 10/Brock Concession Road 6 in the community of Sunderland in the Township of Brock. It would travel east along Brock Concession Road 6 and then north on Simcoe Street to a termination point at Farmstead Road where it would tie in to an existing Enbridge pipeline.
8. The Fenelon Falls Segment would originate near the intersection of Highway 7 and Taylor's Road west of the town of Lindsay in the community of Oakwood. From there it would travel north along Taylor's Road, continue east along Quaker Road, north along Eden Road and then east along Cambray Road/County Road 9 to Highway 35. From this point the pipeline would travel north to the community of Fenelon Falls, terminating near the intersection of Bond Street and Colborne Street/County Road 121.
9. Enbridge has developed forecasts of costs, customer additions and revenues for the Project and has concluded that the Project requires a grant of funding from the Infrastructure Ontario Natural Gas Grant Program in order to be economically feasible. Funding under the Natural Gas Grant Program is conditional on an expansion project receiving all necessary approvals from the Board. In order to proceed with the Project, Enbridge will require a grant of funding from Infrastructure Ontario to make the Project

economically feasible, as well as approval of Enbridge's management. On this basis, Enbridge hereby applies to the Board under section 90 of the OEB Act for leave to construct the Facilities.

10. Enbridge has entered into a Municipal Franchise Agreement with the City of Kawartha Lakes. Enbridge also holds a number of Certificates of Public Convenience and Necessity granted by the Board in respect of former municipalities that now form part of the City of Kawartha Lakes. In order to allow Enbridge to construct the Facilities to serve Fenelon Falls, Enbridge hereby applies under section 8 of the MF Act for a Certificate of Public Convenience and Necessity in respect of the City of Kawartha Lakes.
11. The route and location for the proposed pipelines were selected by an independent environmental consultant (Stantec Consulting Ltd.), through the process outlined in the Board's *Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines in Ontario (Sixth Edition, 2011)* (the "Guidelines"). Despite the environmental and socio-economic assessment work for the Fenelon Falls project having been completed prior to the release of the 7th edition of the Guidelines, Enbridge has endeavored to follow the process outlined in this most recent version of the Guidelines. To that end Enbridge engaged the Ministry of Energy to determine if there is a duty to consult requirement triggered by the Fenelon Falls project. Information on indigenous consultations and Duty to Consult activities can be found at Exhibit H, Tab 1, Schedule 1 of the pre-filed evidence.
12. Input from the public and area stakeholders and First Nations was sought during the route selection process and was incorporated into the final alignment decision. Details on the route selection and the Environmental and Socio-Economic Impact Assessment ("ER") of the proposed facilities are included at Exhibit D, Tab 1, Schedule 3, Attachment 1. The proposed measures outlined in the ER will be implemented to mitigate and potential environmental impacts.
13. Enbridge has included draft agreements at Exhibit G, Tab 1, Schedule 3 that will be offered to affected landowners where the need for an easement arises.
14. Construction is scheduled to commence no later than April 2018 in order to begin providing gas distribution service to Fenelon Falls by October 2018. Exhibit E, Tab 1, Schedule 1 provides the proposed construction schedule.
15. A list of interested parties and permitting authorities is provided at Exhibit A, Tab 2, Schedule 3.
16. Enbridge requests that this Application proceed by way of written hearing in English.

17. Enbridge therefore requests, on the basis set out in paragraph 9, above, that the Board make the following orders:
- (i) an order pursuant to section 36 of the OEB Act approving the proposed SES for all customers that take natural gas distribution service from a Community Expansion Project by Enbridge and associated changes to the Glossary of Terms in Enbridge's rate handbook;
 - (ii) an order pursuant to section 36 of the OEB Act approving an SES with a term of 40 years for all customers that take gas distribution service from the Fenelon Falls Community Expansion Project described in this Application;
 - (iii) an order pursuant to section 90 of the OEB Act granting leave to construct the Facilities;
 - (iv) an order pursuant to section 97 of the OEB Act, 1998 approving the proposed form of easement agreements; and
 - (v) an order pursuant to section 8 of the MF Act granting a Certificate of Public Convenience and Necessity to Enbridge in respect of the City of Kawartha Lakes.
18. Enbridge requests that copies of all documents filed with the Board in connection with this proceeding be served on it and on its counsel, as follows:

More: Overview

Fenelon Falls Pipeline Project

Overview

Enbridge Gas Distribution Inc. ("Enbridge"), is proposing to construct up to a total of approximately 37 kilometres (km) of natural gas pipelines at different nominal pipe sizes (NPS) and pressure systems, in the City of Kawartha Lakes (CKL) and the Township of Brock in the Regional Municipality of Durham (Durham Region), Ontario, to serve the Community of Fenelon Falls (the "Project").

Segment 1:

also known as the Sunderland Reinforcement Segment (RS) will consist of approximately 8 km of NPS 6-inch steel extra high pressure (XHP) pipeline. The proposed pipeline will originate near the intersection of Highway 7/12 and Regional Road 10/Brock Concession Road 6 in the Community of Sunderland.

Segment 2:

also known as the Distribution Pipeline to Fenelon Falls Segment (DPFF) will originate approximately 1.2 km north of the intersection of Highway 7 and Taylor's Road in Oakwood. The pipeline will run north along Taylor's Road, continue east along Quaker Road, north along Eden Road and then east along Cambrey Road/County Road 9 to rejoin Highway 35.

For reasons outlined in the Attached, Enbridge is requesting a minor deviation from the preferred route in the Environmental Report in the Fenelon Falls Segment.

OEB Notice of Application

On August 18, 2017, the OEB issued the Notice of Application with respect to the filing by Enbridge for a leave to construct application for approval to construct a natural gas pipeline to serve the community of Fenelon Falls.

Requests for intervenor status are due to the OEB by September 5, 2017.
