Re: Regional Planning and Cost Allocation Review
Board File No. EB-2016-0003

Dear Ms. Walli:

On September 21, 2017, the Ontario Energy Board gave notice under section 70.2 of the Ontario Energy Board Act, 1998 of proposed amendments to the Transmission System Code (TSC) and the Distribution System Code (DSC). Comments on the proposed amendments are due October 23, 2017.

On October 3, 2017, the Coalition of Large Distributors (CLD) filed a letter requesting a minimum of a two week extension within which to provide comments due to the wide-ranging and customer-facing impacts of the proposed amendments and the need to undertake the necessary analysis to fully consider the issues.

AMPCO supports CLD's request for a minimum two week extension to the October 23, 2017 deadline to provide comments. AMPCO submits more time is required to appropriately consider the amendments and consult with AMPCO's membership.

Please do not hesitate to contact me if you have any questions or require further information.

Sincerely,
