This map illustrates the proposed 230kV East-West Tie Line route, showing its path from Nipigon in the north to Wawa in the south. The route follows the western shore of Lake Superior, passing through several communities and transformer stations (TS). Key locations marked include Nipigon, Dorian, Pays Plat First Nation, Schreiber, Terrace Bay, Marathon, White River, Michipicoten-First Nation, and Wawa. The map also shows the Pukaskwa National Park and the Michipicoten River. A legend provides details on symbols used for communities, transformer stations, existing and proposed transmission lines, highways, and first nation reserves. A scale bar indicates distances up to 100 km, and a compass rose shows cardinal directions.
