Whitby Hydro Electric Corporation applied to the Ontario Energy Board to change its electricity distribution rates effective January 1, 2018. If the application is approved, a typical residential customer of Whitby Hydro Electric Corporation would see an increase of approximately \$1.13 per month. Other customers, including businesses, may also be affected. The requested rate change is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency.

Whitby Hydro Electric Corporation has also separately applied to the Ontario Energy Board to clear balances in certain accounts, recover stranded meter costs and establish low voltage service rates. The \$1.13 per month change in distribution rates for a typical residential customer may be further affected by the requests in this second application.

The Ontario Energy Board will hear the applications together.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Whitby Hydro's request. We will determine whether the company has used the applicable models and formulas required by the OEB. We will also hear questions and arguments from individual customers and from groups that represent Whitby Hydro's customers. At the end of this hearing, the OEB will decide what, if any, rate changes will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
